	Examiner Galen L Barefoot	Art Unit 3644	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
 - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
 - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
 - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-6,8-12,15-18,21-23,24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Woodland (6056237) in view of Young et al (6626399).

Woodland shows the backpack in fig 28, a launch tube, parachute fig 43, uses GPS, and the camera 11 pans and tilts. It would have been obvious to one having ordinary skill in the art at the time the invention was made to substitute the rail of Young et al for the tube of Woodland since it is a mere engineering issue and further noted that foam packing, a hinge for sliding joint of Young are all obvious modifications of the area of mechanical expedients.

Young et al shows pins 70a that hold the craft to the carriage against a shear force on the pin.

It is also noted that the term "capable" is a broad term that provides no specifics of how or what the structure is or used, since through various mechanical means all things are capable of being removed or placed in a container.

1. Claim 7 is rejected under 35 U.S.C. 103(a) as being unpatentable over Woodland in view of Young et al as applied in paragraph above, and further in view of Siegel et al (4238093).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to substitute the gas powered launching power of Siegel et al for the rubber bands of the above combination.

2. Claims 13 and 14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Woodland in view of Young et al as applied in paragraph above, and further in view of Adkins et al (4856736).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to substitute the wing arrangement of Adkins et al for the above combination since it is a stable arrangement for RPVs.

3. Claims 19-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Woodland in view of Young et al as applied in paragraph above, and further in view of Thurber, Jr. et al (4530476).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to substitute the power plant of Thurber (col 4, lines 25-31) for that of Woodland since it is a mere substitution of equivalents and the addition of a generator on a gas powered engine is also obvious mechanical expedient.

1. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
